# Marsden UF-SS-I-400SS: Weigh palletised goods easily and accurately, whatever the conditions

For challenging environments, you need a tough scale. If the scale is likely to get wet, or need hosing down, you want to know it's going to be up to the job. If it's expected to handle daily use, it needs to be built to last.

The **UF-SS-I-400SS** is IP68 certified, with fully protected loadcells in its portable, stainless steel U frame. This scale will handle hosing down, day after day, and still provide accurate weight readings.

## IP68 waterproof - as hardy as they come

The UF-SS-I-400SS consists of an IP68 **waterproof indicator** and **IP68 waterproof portable U frame**.

The **304 food grade stainless steel** construction of both indicator and U frame makes them **easy to wash down**.

The indicator, with its **50mm high LCD weight display** is easy to use and comes with a wall bracket for mounting or positioning prior to use.

IP68 certification is the highest waterproof rating available from Marsden; in fact, few weighing scales carry such a high IP rating.

## Perfectly designed for weighing pallets, dolavs and roll cages

Marsden U frames are designed specifically for **easy pallet weighing**.

Additionally, these lightweight, portable scales are fitted with a **handle and wheels** so that the scale can be taken to the load, rather than the other way around. The scale is **powered by rechargeable battery** providing **50 hours of power between charges** - perfect if you're weighing regularly. The UF-SS-I-400SS can then be **easily stored away when not in use**.

## Easy to use when you need an accurate weight reading

Functions of the I-400SS indicator are laid out clearly for simplicity and faster weighing processes.

Use **Tare** to remove unwanted weight from the reading, such as a box, tray or scoop. Press **Gross** and you'll see the total weight on the scale, including the tared weight. The large display shows readings clearly.

## Key features

- IP68 waterproof stainless steel indicator
- IP68 304 food grade stainless steel U frame
- Handle and wheels for portability
- Bright, clear 50mm LCD display
- Rechargeable battery - 50 hours between charges
- Adjustable levelling feet
- Tare/Gross

## A choice of capacities and graduations

To fit your needs perfectly, the UF-SS-I-400SS is available with a **choice of capacities and graduations**.

Plus, to keep your scale accurate and reliable for longer, **Marsden service contracts** are available.

**Recalibration** can be carried out, and a Calibration Certificate supplied. Calibration Certificates may be checked during Health & Safety checks.

## Specification

**Capacities:** 600kg, 1500kg, 2000kg

**Graduations:** 0.2kg, 0.5kg

**Dimensions:** 1270mm x 840mm x 90mm

**Power:** Mains/rechargeable battery

**Battery life:** 50 hours
