Marsden B-200: An easy to use, easy to clean veterinary scale for small pets

The Marsden **B-200 Vet Scale** is built for **weighing small pets**. It features a **stainless steel platter, which means it can easily be wiped down to keep it clean and hygienic**. A **low profile base, simple weighing functions** and **large, bright display** make it ideal for basic animal weighing.

Simple functions for instant weight readings

The B-200 veterinary scale keeps things simple - with a **bright display** and **just five function buttons**. Place your pet on the **stainless steel, wipe-down weighing pan**. The weight will appear clearly on the screen. If you want to see the reading in lbs instead of kgs, press the Unit button. If you need to remove unwanted weight, such as a blanket, you can do this using the **Tare function**.

Take it anywhere you need

The B-200 is powered by batteries so can be used wherever it's required. **6x AA batteries** provide a minimum **40 hours' continuous use**. An **AC adaptor** is also supplied so the scale can be powered from the mains if required. Plus, after time without use, the scale will **automatically power off** and save battery life.

Mount the indicator to a wall for easy weight readings

The Marsden B-200 comes with a **wall bracket** and fixings so the indicator can be mounted to a wall at eye level, and the readings on the **LCD display** are crystal clear.

Key features

- Tare
- Wipe down platter
- Can be powered by 6x AA batteries
- AC Adaptor
- Unit switchable
- Wall bracket for indicator

Choose a trusted name

For **over 90 years**, Marsden has supplied weighing scales to businesses **across the UK** and **around the world**. Our weighing scales are **trusted** by some of the largest brands in the world.

Our veterinary scales are no different. The B-200 continues our tradition of providing accurate, innovative weighing solutions.
