# Digi DI-166 and DI-166SS: User friendly digital weighing indicator for use with weighing platforms and bases

The **Digi DI-166** and **DI-166SS** are **Trade Approved** digital indicators. Both models are ideal for a whole array of environments due to the **two setting levels, one for standard weighing and another for animal weighing.**

## User friendly operation

A **high contrast LCD display with a back-light** makes this scale highly visible in all environments, including warehouses and factories. **5 operation keys** with graphic symbols make weighing quick and easy.

With a **display resolution of 1/15,000** the DI-166 and DI-166SS weighing indicator are suitable for many Trade Approved weighing applications.

## Easy to use functions

The DI-166 and DI-166SS include **one touch/digital Tare subtraction** to remove any unwanted weight, such as the weight of a pallet.

Plus weighing can be undertaken in **standard or animal weighing mode.**

## IP67 indicator for durability

With its **IP67 certification**, the DI-166SS indicator can handle tough industrial environments, and its **stainless steel casing** can be **washed down to keep clean**.

## Key features

Large LCD backlit display

Zero

Tare/Preset Tare

Animal weighing mode

IP67, stainless steel housing (DI-166SS only)

## Compatible with many different scales

The DI-166 and DI-166SS indicators can be used with many different scales. Options available from Marsden include platform scales, drive thrus, bench scales and more.

## Specification
