What is the I-400?

The I-400 is a simple and easy to use check weighing indicator which works as standard with Marsden column scales and platform scales.

This indicator makes industrial weighing easy. It is our latest entry level indicator which features from many different functions including counting, zero, tare and accumulation.

Check weighing made simple

The I-400 combines tough, rugged build quality with easy to use features and a bright, bold weight display making it perfect for use in all environments.

The indicator is primarily designed for easy buy precise check weighing. Therefore, it has a bright and clear 32mm LED display, which can easily switch between lb and kg readings.

Easy access functions

The I-400 indicator is packed with easy to use features. Tare will allow you to remove the weight of unwanted items Hold will stabilise the weight reading.

If you have several items which you want to get a combined weight for, you can use the accumulation function. Simply add each item to the scale separately and one button will total the weight.
