What is the I-400SS?

The I-400SS is a simple and easy to use, stainless steel check weighing indicator which works as standard with Marsden column scales and platform scales.

This indicator makes industrial weighing easy. It is our latest entry level indicator which features from many different functions including counting, zero, tare and accumulation.

Check weighing made simple

The I-400SS combines tough, rugged build quality with easy to use features and a bright, bold weight display making it perfect for use in all environments.

The indicator is primarily designed for easy buy precise check weighing. Therefore, it has a bright and clear 50mm LCD display, which can easily switch between lb and kg readings.

Wash down construction

The I-400SS is suitable for application in a wide range of environments due to the IP68 rated housing which means that the scale can be regularly hosed down.

IP68 rating means that the scale is now only completely protected when it comes to dust particles, but the scale can also be thoroughly washed in order to keep hygienic, with no issue being caused to the scale.
