- Weighs in kg or lb
- Hi/lo alarm
- Multi-functional check weigher
- Portable
- 40 hours of continuous use
- Perfect for stock control, production and despatch
- Tare
- Accumulation

Easy to use

The Jadever JWN is packed with features to make it quick and easy to use, and we have found it to be highly useful in an industrial environment.

Tare allows the user to remove any unwanted weight, the Accumulation function means a number of weights can be totalled, and weight readings can be displayed in kg or lb.

Hi/Lo alarm

A hi/lo alarm makes weighing quicker and easier. It means you can weigh to specific targets, with the alarm sounding if you hit a target weight, or exceed a target.

This can help improve efficiency and speed, especially if you are using the scale regularly and you need to weigh items quickly. The Hi/Lo alarm also makes it easy when counting small items.

Portable

An internal rechargeable battery provides at least 40 hours of continuous use, which offers you great flexibility as it will easily see you through a shift.

Plus, the JWN is also compact and lightweight, so taking it to where you need it is no problem. This makes carrying out stock taking quick and easy as you can move the scale where you require.

Capacity:	3kg 6kg 15kg 30kg	Power Supply:	Mains/Rechargeable Battery
