Simple weighing

The M-430 is a heavy duty stand on scale, made from reinforced aluminium, which is ideal for weighing adults as it is accurate to a minimum of 200g.

The scale features from a 'tap-on' function, which means that the user does not need to bend down to operate the scale, and you can simply tap the device with your foot and it will power on.

Ideal for the community

We understand that patients are weighed in their own home, just as frequent as they are within a medical environment. This is due to a growing number of telehealth schemes.

This scale is heavy duty and portable, making it the perfect addition to the arsenal of any community health visitor. It is also easy and simple to use for people of all ages in their own home.

Easy to use

With three simple buttons, the M-430 could not be simpler to use and this is why it is one of our best-selling products for medical professionals and home users.

The On/Off button ensures that you have full control over the device. Hold key enables you to gain weights even for the most active babies and the tare keys allows you deduct the weight of the sling or any clothing.
