

# MARSDEN

## M-999 Patient Transfer Scale

- Class III and MDD Approved
- Accurate from 500g
- Revolutionary weighing device
- Capture a patient weight during lateral transfer
- To be used as part of an existing process
- Ideal for immobile patients

# Marsden M-999:

## Patient Transfer Scale

- Class III and MDD Approved
- Accurate from 500g
- Invented by an Emergency Care nurse, determined to find easier ways to weigh patients
- Obtain a patient weight whilst carrying out a lateral transfer
- Auto power-off function helps to save battery power
- Use the Patient Transfer Scale instead of your traditional PAT slide
- Initially tested in over 30 hospitals
- The final design was influenced from healthcare professionals
- Now used by over 60% of NHS trusts
- Hold and Tare functions to enable accurate and easy weighing
- Covered by the Marsden 4 year warranty

### Why chose the PTS?

The M-999 was invented by a nurse named Gillian Taylor with over 20 years in Stoke and ED. She needed a weight to gain an accurate weight for her patients.

It is imperative to gain accurate weights for immobile patients, whether that be for nutritional scoring, monitoring/diagnosis and when weight dependent medications are being administered.

### How to use the PTS?

The M-999 was designed by feedback from over 30 NHS trusts, which means that this Patient Transfer Scale is simple and easy to use, whilst still gaining an accurate weight.

Use the Patient Transfer Scale as you would a general PAT slide which you would use during a lateral transfer. The process takes minutes to use and completely eliminates the need to 'guesstimate' weights.

### Precision weighing

The PTS features from 16 loadcells, strategically placed to accurately capture data from the patient and provide precise weight readings.

The loadcell placement, combined with the ABS housing, stainless steel top plate and wipe clean surface mean that the PTS is a welcome addition to any A&E, Stroke, CATH lab, etc.

<b>Capacity:</b>	250kg	<b>Power Supply:</b>	Mains/Rechargeable
<b>Graduations:</b>	500g	<b>Battery Life:</b>	50 hours of continuous use
<b>Functions:</b>	Hold, Tare, Portable	<b>Approvals:</b>	Class III and MDD Approved
<b>Dimensions:</b>	1800mm x 700mm x 30mm	<b>Optional Extras:</b>	Carry Case
<b>Weight:</b>	11kg	<b>Warranty Period:</b>	1 Years
