

MARSDEN

PT-100 Pallet Truck Scale

- Mild steel pallet truck with built-in scale
- Splashproof, IP67-rated LED indicator
- Dimensions to fit euro pallet
- Auto power-off
- 70 hours continuous use
- Overload protection

Marsden PT-100:

Heavy Duty Pallet Truck Scale

- Mild steel pallet truck with built-in scale
- Splashproof, IP67-rated LED indicator
- Dimensions to fit euro pallet
- Auto power-off
- 70 hours continuous use
- Overload protection
- Low profile forks
- Zero, Tare and Pre-set Tare functions for easier weighing
- Four heavy duty load cells
- Bright red LED display

Easier weighing

The PT-100 is built for demanding day-to-day weighing jobs, ideal for use in warehouses, factories and other high heavy industry environments.

The 32mm high red LED electronic display shows the weight reading clearly, even from a distance or in poorly-lit environments. The forks have been designed to weigh standard euro palettes.

Long-life battery

In addition to the mains adaptor, the PT-100 also has an internal rechargeable battery, which lasts up to 40 hours, meaning it can last all week long.

Due to the programmeable auto power-off function, the scale will turn off when it has been left idle for a minimum of 10 minutes, to help preserve battery life and ensure your scale is always ready.

Overload Protection

The PT-100 is packed with easy to use features making weighing for the user even easier, within a vast number of environments.

Tare allows you to remove the weight of the pallet from the reading. Hold will stabilise the weight reading. A simple counting function allows you to add up items on a pallet quickly and easily.
